- Independent Auditor’s Report on Compliance with Section 218.415, Florida Statutes 82
- Schedule of Findings and Responses 83
(This page intentionally left blank.)
INTRODUCTORY SECTION
March 20, 2015

To the Honorable Mayor and Town Commission
Town of Pembroke Park, Florida

In accordance with Section 11.45, Florida Statutes, and Section 18 of the Town Code of Ordinances, submitted herewith is the Comprehensive Annual Financial Report for the fiscal year ended September 30, 2014. Responsibility for both the accuracy of the data and completeness and fairness of its presentation, including all disclosures, rests with the Town. Management believes that the data presented is accurate in all material respects; that it is presented in a manner designed to present fairly the financial position and results of operations of the Town as measured by the financial activity of its various funds; and that all disclosures necessary to enable the reader to gain the maximum understanding of the Town’s financial affairs have been included.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management’s Discussion and Analysis (MD&A). The letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The Town’s MD&A can be found immediately following the report of the independent auditors.

THE REPORTING ENTITY AND ITS SERVICES

The Town of Pembroke Park was incorporated on December 10, 1957 and established on June 20, 1959 by Chapter 59-1722, Laws of Florida, as amended. The Town operates under a Commission form of government and provides general government, public safety, physical environment, public works, and culture and recreation to its residents and business community. The Mayor and four Town Commissioners are responsible for establishing policies for Town government. The Mayor and Commission appoint the Town Manager, who is the Chief Administrative Officer of the Town and is responsible for implementing policies adopted by the Commission.

This report includes all of the funds for which the Town of Pembroke Park is financially accountable. Although the Broward County Board of County Commissioners, Broward County District School Board, the South Florida Water Management District, the Children’s Service Council of Broward County, the South Inland Navigation District, and the South Broward Hospital District levy and collect taxes on property located within the corporate limits of the Town of Pembroke Park, financial information on these taxing authorities is not included in this report, since each has a separate elected governing body, are legally separate, and are fiscally independent of the Town. Annual financial reports of these units of government are available upon request from each agency.
Town of Pembroke Park, Florida

ECONOMIC CONDITIONS AND OUTLOOK

The Town of Pembroke Park serves an area of approximately 1.7 square miles with an estimated population of 6,122 residents. Prior to incorporation, the Town received services from Broward County as part of its unincorporated municipal services taxing unit. The Town received no real property, facilities, or equipment from Broward County upon incorporation.

The Town’s combination of mobile home parks and commercial developments resulted in a taxable value of approximately $ 547,990,914 and a taxable value per capita of approximately $ 89,511. The 2013/2014 fiscal year was a relatively active construction year for the Town with a good combination of commercial and industrial. An analysis of the projects in the various stages of the planning and development process indicated that building activity will continue to be geared toward similar activities perhaps at a faster pace than in previous years.

MAJOR INITIATIVES

The 2013/2014 fiscal year budget included a number of priorities and goals. The most significant are as follows:

- Reduce the risk of flooding within the corporate limits of the Town to minimize property losses and damages for our Town’s residents.

- This goal was accomplished by replacing and improving major stormwater piping in various areas of the Town. The Town of Pembroke Park S.W. 30th Avenue (South) Stormwater Improvements Project was completed in April 2014. The project included the construction of a drainage collection system and roadway improvements to alleviate flooding problems in this commercial business section of Town. This LPDM project was funded by FEMA, and Florida Department of Environmental Protection (FDEP) Grants.

FOR THE FUTURE

The Town continues to pursue and modify its goals as outlined in the Five-Year Capital Improvement Plan. Some of these goals were emphasized as essential to further enhance the quality of life of Town residents and to diminish property damage and loss that may occur during the hurricane season. The highest priorities for the coming years are as follows:

- The Town of Pembroke Park Sewer Lift Stations No. 14 and 17 are designed, permitted and shovel-ready. The Town of Pembroke Park continues with the wastewater collection system improvements program as outlined in Wastewater Collection Pumping System Improvements Plan of 2003. The design for the lift stations is in conformance with new construction standards and is being constructed with permanent generators.

- The Town of Pembroke Park S.W. 30th Street Wastewater Project includes the rehabilitation of the six (6) lift stations and the replacement of a deteriorated sewer force main located along S.W. 30th Street. The proposed lift station designs are in conformance with new construction standards.

- The Town of Pembroke Park Sanitary Sewer Restoration Project includes detection of leaks and repair within the existing sewer system. This project reduces infiltration and meets permit requirements. The sewer system has been deteriorating over the past few years and is characterized by increasing inflow and infiltration to the system, especially during and immediately after a heavy rainfall. The Town will use chemical grouting, sectional repair, sliplining, and complete replacement of the line to reduce the infiltration to the system.
The Town of Pembroke Park S. W. 52nd Avenue Connection Project includes the construction of stormwater piping on County Line Road, and will be designed to tie into the County’s trunk line located on S.W. 56th Avenue. This project will allow a means of conveyance of stormwater flows and will help alleviate potential flooding problems on the west side of Town.

**FINANCIAL POLICIES**

The Town’s budgetary and financial policies provide the basic framework for the overall fiscal management of the Town. The main policies consist of budgetary, revenue, cash management, and fund balance and risk management policies. These policies are used in the development of current activities and planning for future programs.

**Internal Accounting Control:**

Management of the Town is responsible for establishing and maintaining internal controls to allow for the preparation of financial statements in conformity with generally accepted accounting principles. Internal controls are designed to provide reasonable assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management. We believe that the Town’s internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

**Budgetary Controls:**

Budgetary appropriations are legally controlled at the department level. Encumbrances, purchase orders and other commitments for the expenditure of monies are recorded throughout the fiscal year. Changes and amendments to the total budget of the Town must be approved by the Commission. Expenditures over $ 500 are also approved by the Commission on a monthly basis. Budgets are adopted on a basis consistent with generally accepted accounting principles. All outstanding encumbrances lapse at the end of the fiscal year. Any lapsed capital outlay expenditures are re-appropriated in the next fiscal year. There was one amendment to the Fiscal Year 2013/2014 Budget subsequent to the initial budget adoption.

**Revenue Policy:**

The Town will attempt to maintain a diversified and stable revenue system to avoid reliance on any one revenue source and will attempt to minimize the dependence on property taxes. Charges for services are used to recover partial or full cost of providing services that benefit individual users. Additionally, it is the Town’s policy that new ongoing operating costs are funded with permanent, ongoing revenue sources. One-time operating costs are tied to one-time revenue sources to ensure fund balance integrity.

**Fund Balance:**

The Town previously implemented Governmental Accounting Standards Board (GASB) Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions* for its governmental fund. GASB Statement No. 54 establishes various classifications of fund balance based on a hierarchy which details constraints placed on the use of resources by creditors, grantors, contributors or laws or regulations of other governments. Fund balances classified as Committed can only be used for specific purposes determined by formal action of the Town Commission through an ordinance or a resolution. Commitments can only be changed or lifted only by the Town Commission through formal action. Assigned fund balances are amounts that the Town intends to use for a specific purpose but are neither restricted nor committed. The intent to utilize these funds is delegated to the Town Manager. Unassigned fund balance can be viewed as the net resources available at the end of the year.
Town of Pembroke Park, Florida

OTHER INFORMATION

Independent Audit:

In accordance with section 11.45(3)(a) (4), Florida Statutes, and Section 18 of the Town Code of Ordinances, the Town engaged the firm of Keefe, McCullough & Co., LLP, Certified Public Accountants, to perform the independent audit of the Town's accounts and records. The independent auditors' reports are included in the Financial and Compliance sections.

Certificate of Achievement:

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Reporting to the Town of Pembroke Park, Florida for its Comprehensive Annual Financial Report for the year ended September 30, 2013. This is the eleventh straight year that the Town has received this prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, the Town must publish an easily readable and efficiently organized Comprehensive Annual Financial Report, whose contents conform to program standards. This report satisfied both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgments:

The preparation of this report on a timely basis could not have been accomplished without the efficient and dedicated services of the Finance Department. We express our appreciation to members of the Department who assisted and contributed to its preparation. We also wish to thank the Mayor and Town Commission for their interest and support in planning and conducting the financial operations of the Town in a responsible and progressive manner.

Respectfully submitted,

Dr. Robert A. Levy

FINANCIAL SECTION
INDEPENDENT AUDITOR’S REPORT

To the Honorable Mayor and Town Commission
Town of Pembroke Park, Florida
Pembroke Park, Florida

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Town of Pembroke Park, Florida (the “Town”) as of and for the year ended September 30, 2014, and the related notes to the financial statements, which collectively comprise the Town’s basic financial statements as listed in the table of contents.

Management’s Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor’s Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.
Town of Pembroke Park, Florida

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town, as of September 30, 2014, and the respective changes in financial position, and where applicable, cash flows thereof and the budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management’s discussion and analysis on pages 3 through 10 and other required supplementary information on pages 48 through 53 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management’s responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town’s basic financial statements. The introductory section and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated March 20, 2015, on our consideration of the Town’s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Town’s internal control over financial reporting and compliance.
This section of the Comprehensive Annual Financial Report (CAFR), entitled Management’s Discussion and Analysis (MDA), is presented as a method to assist the reader in better understanding the financial position of the Town of Pembroke Park, Florida (the “Town”) as of the date of the report in accordance with the Government Accounting Standards Board. Items noted in this section are:

1. Financial Performance - how the Town arrived at its current position by identifying key changes to the components of the financial position, examples include special grants, special assessments, disasters, etc.

2. Operational performance - how the Town performed during the past fiscal year when comparing planned results to actual results. Are trends developing that may alter forecasts?

The Letter of Transmittal, included in a previous section of this CAFR, discusses other relevant items that impact the overall financial condition of the Town. The Letter of Transmittal should be read in conjunction with Management’s Discussion and Analysis and the Town’s financial statements.

FINANCIAL HIGHLIGHTS

The following are the highlights of financial activity for the fiscal year ended September 30, 2014:

- The net position amount of $19,755,882 is the result of total assets less liabilities. Governmental net position was $8,235,577 and business-type net position was $11,520,305.

- The Town’s revenues for governmental activities were $9,200,573. Expenses for governmental activities were $9,802,078.

- At the beginning of the fiscal year, the Town anticipated to use $563,519 of reserves to fund fiscal year’s 2013/2014 expenditures. At the close of the fiscal year, the Town’s governmental fund reported an ending fund balance of $4,162,380, a decrease of $420,023 from the prior year.

- In the General Fund, ad valorem tax revenues collected during the fiscal year increased from the previous year’s collections by $90,193. The Town’s property value remained consistent with the previous fiscal year.

- Charges for wastewater and drainage service in the Town’s enterprise funds increased by $273,898 during fiscal year 2013/2014. The increase was due to a rate increase in consumption for both services.

- Total revenues for business-type activities increased by $848,118 over the prior year. The overall growth in revenues is due to capital grants of $611,591 received during 2013/2014.
TOWN HIGHLIGHTS

During fiscal year ended September 30, 2014, the Town continued working on several upgrades of the storm water drainage systems.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the Town’s basic financial statements. The basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other required supplementary information in addition to the basic financial statements themselves.

**Government-wide statements:**

The government-wide financial statements, which consist of the following two statements, are designed to provide readers with a broad overview of the Town's finances, in a manner similar to a private sector business.

The statement of net position presents information on all the Town’s assets and liabilities, with the difference between the two reported as net position. Increases or decreases in net position may serve as a useful indicator of whether the financial position of the Town is improving or deteriorating.

The statement of activities presents information showing how the Town's net position changed during the year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

**Fund financial statements:**

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town categorizes funds into two basic fund types: governmental funds and proprietary funds.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as balances of spendable resources available at the end of the year. Such information may be useful in evaluating the Town's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the Town's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide reconciliations to facilitate this comparison between governmental funds and governmental activities.
Proprietary funds are comprised of the enterprise funds which are the equivalent of business-type activities in the government-wide statements. These include the Sewer Utility Fund and the Stormwater Drainage Fund.

The Town reports a pension trust for its defined benefit pension plan in the fiduciary fund. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not included in the government-wide financial statement because the resources of those funds are not available to support the Town’s own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The fiduciary fund statements can be found on pages 25 and 26 of this report and a more detailed description of the Town’s pension trust fund may be found in Note 7 to financial statements.

Notes to the financial statements:

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other financial information:

In addition to the basic financial statements and accompanying notes, this report also presents other financial information concerning the Town’s capital assets.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

The Town's combined net position totaled $19,755,882 as of September 30, 2014. Governmental activities net position totaled $8,235,577 and business-type activities net position totaled $11,520,305. Unrestricted net position is that portion of net position that can be used to finance daily operations without constraints established by debt covenants, enabling legislation, or other legal requirements.

As of September 30, 2014, the Town’s unrestricted net position increased by $612,447 which resulted from a combination of the governmental activities unrestricted net position decrease of $601,504 and the business-type activities net position increase of $1,420,055. The combined unrestricted net position amounted to $10,169,918 as of September 30, 2014. A key component to the Town’s growth in net position is the Town’s effort to encourage business investments in the Town. The Town’s open door policy with the private sector together with the Town’s strict zoning regulations and a balanced land use provide for the Town’s stable growth of industrial, commercial, residential and recreational development. Additionally the Town completed stormwater system improvements for which it received governmental grants. The cost of these improvements will be recognized over their useful life.

General discussion on revenues:

Several areas can be identified which directly impact this current reporting period and the next fiscal year’s revenues. The millage rate established by the Town during the budget process determines how much property tax revenue is generated in the General Fund. Property tax revenue is the major revenue source in the General Fund, it accounts for approximately 48% of total fund revenues in fiscal year 2013/2014. The millage rate is a rate charged per thousand dollars of assessed property value net of exemptions.

The planning and decisions taken by the Town are always weighted against the financial burden that will be placed on both current and future residents of the Town, as well as potential economic and environmental impacts. Through careful planning, Pembroke Park has kept its tax millage rate unchanged for the past fourteen fiscal years at 8.5000 mills. One mill of tax equals one dollar for each one thousand dollars of assessed property value as determined by the Broward County Property Appraiser.

The Town’s financial condition generally is affected by economic conditions. During prosperous economic periods, property values generally increase which correspondingly increase property tax revenue. The Town’s taxable value slightly increased during fiscal year 2013/2014.

During fiscal year 2012/2013 the Town’s governmental fund recorded one-time revenue of $460,953. This revenue caused the decrease in revenues of $373,538 for fiscal year 2013/2014 when compared to the previous year. Other revenues for the governmental fund remain steady with small positive and negative variances when compared to the previous fiscal year.

The Town experienced an increase in revenues of $848,118 for the business type activities funds. Operating revenue, which includes charges for services, increased by $273,898. The rise was due to an increase in stormwater and sewer rates. Grant revenue increased by $427,378. Florida Department of Environmental Protection awarded the Town a $450,000 grant to work on stormwater and drainage improvements that would diminish property damage and loss that may occur due to flooding from Hallandale Beach Boulevard to Lake Shore Mobile Home Park.

General discussion on expenses:

Expenses for the governmental and business type activities were $9,802,078 and $3,084,194, respectively. One of the Town’s major expenses is the payment to Broward County for police and fire rescue which accounts for $5,509,159 or 57% of the total expenses for the General Fund.
The number of employees working for the Town has remained stable over the years. The increase of $562,457 in expenses for the general fund was due to an increase on the cost of public safety of $196,975 and general government of $227,502.

Program expenses for business type activities funds decreased by $21,510. The decrease was due to a reduction of $74,934 for the payment made to the City of Hollywood for processing sewage for the Town. Other expenses fluctuated in either direction creating the net decrease on expenses for both funds.

ANALYSIS OF THE GOVERNMENT'S FUNDS

The Town uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds:

The focus of the Town's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Town's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.
The General Fund is the chief operating fund of the Town. At the end of the fiscal year ended September 30, 2014, unassigned fund balance of the General Fund was $3,592,672. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned and total fund balance to total fund expenditures. The unassigned fund balance represents approximately 37% of the expenditures in the General Fund.

The General Fund’s fund balance decrease from $4,582,403 to $4,162,380 during the current fiscal year, a difference of $420,023. The key factors in this change are included in the section entitled, “General Fund Budgetary Highlights.”

**Proprietary Funds:**

The Town’s proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. Net position of the Enterprise Funds amounted to $11,520,305 at the end of the fiscal year ended September 30, 2014, an increase of $1,420,055 over the prior fiscal year. Other factors concerning the finances of these two funds are covered in more detail in the discussion of the Town’s business-type activities in the Government-wide Financial Analysis section.

**GENERAL FUND BUDGETARY HIGHLIGHTS**

The Town amended its budget once at the end of the year. Changes and amendments to the budget must be approved by the Commission. The original budget was amended to update for unanticipated revenues and expenditures noted below. The Commission approves purchase orders and nonrecurring expenditures over $500 on a monthly basis. The Commission uses this procedure to closely monitor expenditures and commitments made by the Town.

General Fund revenues were $255,639 more than the original budget projections. The Town collected a total of $182,960 less than what was originally budgeted for Ad Valorem Taxes. Other Miscellaneous revenue increased by $287,340 from the budget amount. Collections for revenues generally fluctuated more or less near the budget amounts with no significant variances.

**CAPITAL ASSETS AND DEBT ADMINISTRATION**

The Town had $13,221,645 net of depreciation invested in capital assets on September 30, 2014. The following schedule summarizes capital asset activity over the past fiscal year:

For more detailed information, please refer to the notes to the financial statements on pages 37 and 38:

</tbody>
</table>
The Town will continue its capital outlay efforts by upgrading the water and wastewater lines. The amount spent on these infrastructure improvements remains fairly consistent from year to year. During fiscal year 2013/2014, the Town continued upgrades on the sewer and stormwater systems. Funding for these projects was provided through a combination of federal and state grants.

**Debt:**

The Town had debt totaling $3,937,269 at September 30, 2014. This amount includes compensated absences. Total debt outstanding at the end of the prior fiscal year was $4,390,857. For more detailed information, please refer to the notes to the financial statements on pages 38 and 39.

</table>
ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

Economic factors:

The Town's primary sources of revenue are property taxes and utility charges for services. State shared revenues, which include telecommunication taxes, account for another large source of revenue.

Over the past year and continuing for the foreseeable future, there has been a modest growth in the local economy. A major factor contributing to this has been the increase in property values at the national level and a lower rate of unemployment. While the decrease in taxable value has been modest for our Town, it has followed several years of increases, during which time it has allowed the Town to build up a sizeable fund balance. The Town has a very diverse tax base including substantial amounts of commercial and industrial property which should allow for a smaller impact to ad valorem revenues in the future years should the economy experience a downturn. For more information regarding the Town's property taxes please refer to the notes to the financial statements.

REQUESTS FOR INFORMATION

This entire report has been prepared by the finance department of the Town of Pembroke Park, Florida with the assistance of the Town's external auditors. Every effort has been made to make this report understandable to the reader. Any questions or comments about this report are welcomed and may be directed to the Town's Finance Director at (954) 966-4600, Extension 232; Fax (954) 961-4760, or by mail to the Town of Pembroke Park, Finance Director; 3150 SW 52nd Avenue; Pembroke Park, Florida 33023.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The summary of significant accounting policies is presented to assist the reader in interpreting the financial statements and other data in this report. The financial statements of Town of Pembroke Park, Florida (the "Town"), have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) applicable to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The following is a summary of the more significant accounting policies of the Town:

Reporting Entity:

The Town of Pembroke Park was incorporated on December 10, 1957 and established on June 20, 1959 by Chapter 59-1722, Laws of Florida, as amended. The Town provides the following services as authorized by its charter; general government, public safety, physical environment, public works and culture and recreation.

The reporting entity is defined as the primary government and any organizations for which the primary government is financially accountable, and identification of legally separate organizations for which the elected officials of the Town are financially accountable. This criterion also includes identification of organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity’s basic financial statements to be misleading or incomplete. Based upon this review, there were no potential component units or related organizations of the Town.

Financial accountability is deemed to exist if the primary government appoints a voting majority of an organization's governing board and is either able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on the primary government. A primary government may also be financially accountable for governmental organizations with a separately elected governing board, a governing board appointed by another government, or a jointly appointed board that is fiscally dependent on the primary government.

Government-wide and Fund Financial Statements:

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government. For the most part, the effect of inter-fund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and user charges for services.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those expenses that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.
NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

**Measurement Focus, Basis of Accounting and Financial Statement Presentation:**

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within sixty days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures and compensated absences are recorded only when payment is due.

Property taxes, franchise fees, utility service taxes and interest are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items such as fines and forfeitures and licenses and permits are considered to be measurable and available only when cash is received by the government.

The Town reports the following major governmental fund:

The General Fund is the principal operating fund of the Town. All general tax revenues and other receipts that are not allocated by law or contractual agreement to another fund are accounted for in this Fund.

The Town reports the following major proprietary funds:

The Sewer Utility Fund accounts for the operation of the Town's sewer utility system.

The Stormwater Drainage District Fund accounts for providing drainage services to the residents of the Town.

Additionally, the Town reports the Pension Trust Fund as a fiduciary fund, which accounts for the activities of the pension plan provided to the Town’s commissioners.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Interfund services provided and used are not eliminated in the process of consolidation. Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, and fines and forfeitures, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.
NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with an enterprise fund’s principal ongoing operations. The principal operating revenue of the Sewer Utility Fund and Stormwater Drainage District Fund are charges to customers for sales and services. Operating expenses for enterprise funds include the costs of sales and services, administrative expenses, and the provision for depreciation of capital assets. All revenues and expenses that do not meet this definition are reported as nonoperating revenue and expenses.

When both restricted and unrestricted resources are available for use, it is the Town’s policy to use restricted resources first, and then unrestricted resources as they are needed.

Cash and Cash Equivalents:

In connection with the statement of cash flows, the Town's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less when purchased.

The Town maintains a cash and investment pool that is available for use by all funds to facilitate the cash management process. Each fund’s portion of this pool is included on the statement of net position/balance sheet as “equity in pooled cash, cash equivalents and investments.”

Investments:

Investments are stated at fair value.

Capital Assets:

Capital assets, which include land, construction in progress, buildings, improvements other than buildings, infrastructure and machinery and equipment, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. The Town defines capital assets as assets with an initial, individual cost of more than $250 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Contributed capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets is reflected in the capitalized value of the asset constructed, net of interest earned on the invested proceeds over the same period for Enterprise Funds.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

GASB No. 34 encourages but does not require certain governments to retroactively report infrastructure assets. The Town has elected not to retroactively report any unrecorded infrastructure that may exist.

Long-Term Debt:

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position.

Compensated Absences Payable:

Town employees may accumulate unused vacation and sick time and may be compensated for such time upon termination of employment at their pay rate in effect at their retirement date. For sick time, there is a limit payable upon termination of no more than $500 for employees. For vacation time, the amount payable upon termination is limited to 400 hours of leave. The liability for these compensated absences in the General Fund is recorded as a long-term liability in the government-wide statement of net position. In the fund financial statements, governmental funds report only the compensated absence liabilities that have matured. In addition, the General Fund has always been used to liquidate compensated absences payable.

Encumbrances:

Appropriations in budgetary funds are encumbered upon issuance of purchase orders, contracts, or other forms of legal commitments. Encumbrances outstanding at year end represent the estimated amount of the expenditures ultimately to result if unperformed contracts in process at year end are completed. Encumbrances outstanding at year end do not constitute expenditures or liabilities. These encumbrances will be honored by Town of Pembroke Park, Florida, and because of this, the encumbrances are reserved from fund balance. The Town had no encumbrances outstanding as of September 30, 2014.

Accounts Receivable:

Accounts receivable reflected in the Sewer Utility Fund and the Stormwater Drainage District Fund are presented net of an allowance for doubtful accounts of $170,644. No allowance for doubtful accounts is considered necessary for the accounts receivable in the General Fund.

Deferred outflows/inflows of resources:

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Town does not have any items that qualify for reporting in this category.
NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Interfund Receivables and Payables:

Transactions between funds that are representative of lending/borrowing arrangement outstanding at the end of the year are referred to as either “interfund receivables/payables.” Any residual outstanding balances between the governmental activities and business-type activities at year end are reported in the government-wide financial statements as internal balances.

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Equity classifications:

Government-wide statements

Equity is classified as net position and displayed in three components:

a. Net investment in capital assets - consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any debt, or other borrowings that are attributable to the acquisition, construction or improvement of those assets.

b. Restricted net position - consists of net position with constraints placed on their use either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments, or 2) law through constitutional provisions or enabling legislation.

c. Unrestricted net position - all other net position that does not meet the definition of "restricted" or "net investment in capital assets."

Fund Statements

The Town presents fund balance in accordance with GASB Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions. This statement requires that governmental fund financial statements present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the Town is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent. The classifications used in the governmental fund financial statements are as follows:

Nonspendable: This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) are legally or contractually required to be maintained intact.

Restricted: This classification includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors (such as through a debt covenant), grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation.
NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Committed: The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the government’s highest level of decision-making authority. The Town Commission is the highest level of decision-making authority for the government that can, by adoption of a resolution prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the resolution remains in place until a similar action is taken (the adoption of another resolution) to remove or revise the limitation.

Assigned: This classification includes amounts that are constrained by the Town’s intent to be used for a specific purpose but are neither restricted nor committed. This intent can be expressed by the Town Council or through the Town Council delegating this responsibility to the Town manager through the budgetary process. This classification also includes the remaining positive fund balance for all governmental funds except for the General Fund.

Unassigned: This classification includes the residual fund balance for the General Fund.

It is the Town’s policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

Date of Management review:

Subsequent events were evaluated through March 20, 2015, which is the date the financial statements were to be issued.

NOTE 2 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Budgets and Budgetary Accounting:

The Town adopts annual operating budgets for the General Fund and the Enterprise Funds, which are prepared on a basis consistent with generally accepted accounting principles, except for the provision for depreciation and amortization which is not budgeted in the Enterprise Funds. Amendments are made to the budgets during the year as approved by the Town Commission. The Town follows State guidelines in filing and submitting their budgets. Appropriations are legally controlled at the department level. Unexpended portions of budget categories lapse at year end.

Level of Control:

The adoption of the budget by the Town Commission constitutes the legal appropriation of the amounts specified therein as expenditures from the appropriate governmental fund. A department budget cannot be exceeded unless the Town Commission has approved a supplemental appropriation, by motion, at a public meeting. The Town Manager may authorize a budget adjustment among the various line items within a department, as long as the total budget for the department does not change.
NOTE 3 – DEPOSITS AND INVESTMENTS

Deposits:

In addition to insurance provided by the Federal Depository Insurance Corporation, all deposits are held in banking institutions approved by the State Treasurer of the State of Florida to hold public funds. Under Florida Statutes Chapter 280, Florida Security for Public Deposits Act, the State Treasurer requires all Florida qualified public depositories to deposit with the Treasurer or other banking institution eligible collateral. In the event of a failure of a qualified public depository, the remaining public depositories would be responsible for covering any resulting losses. Accordingly, all amounts reported as deposits are insured or collateralized with securities held by the entity or its agent in the entity’s name.

At September 30, 2014, the total carrying amount of the Town’s cash balances was $5,069,526. The bank balance at local depositories was $5,073,954. In addition, $250 was held in petty cash.

</tr>
<tr>
<td><strong>Total</strong></td>
<td>$5,069,526</td>
<td>$5,073,954</td>
</tr>
</tbody>
</table>

Investments - Town:

The investment of funds is authorized by Florida Statutes, which allows the District to invest in the Local Government Surplus Funds Trust or any intergovernmental investment pool authorized pursuant to the Florida Inter local Cooperation Act, SEC registered money market funds with the highest credit quality rating, interest bearing-time deposits or savings accounts in qualified public depositories and direct obligations of the U.S. Treasury.

The Town invests surplus funds in external investment pools, the Local Government Surplus Funds Trust Fund (the “State Pool”), administered by the Florida State Board of Administration (“SBA”) and the Florida Municipal Investment Trust administered by the Florida League of Cities.

The Town’s investments follow the investment rules as defined in Florida Statutes Chapter 215. The Town has not adopted a separate investment policy.

The Florida PRIME has adopted operating procedures with the requirement for a 2a7-like fund. The Town’s investment in Florida PRIME is reported at amortized cost. The fair value of the position in the pool is equal to the value of the pool shares.
NOTE 3 - DEPOSITS AND INVESTMENTS (continued)

<table>
<thead>
<tr>

<th>Maturities</th>
<th>Fair Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>Florida PRIME</td>
<td>Weighted average years to maturity is less than one</td>
<td>$335,915</td>
</tr>
</tbody>
</table>

As of September 30, 2014, the Town had the following investments:

<table>
<thead>
<tr>
<th>Investment</th>
<th>Maturities</th>
<th>Fair Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>Florida Municipal Investment Trust 1-3 Year High Quality Bond Fund</td>
<td>Weighted average years to maturity is 1.49 years</td>
<td>$3,860,357</td>
</tr>
</tbody>
</table>

Credit Risk:

The Town’s investments held within the Florida Municipal Investment Trust carry a Fitch rating of AAA/V2. The Florida PRIME is rated AAAm by Standard and Poor’s.

Interest Rate Risk:

Interest rate risk exists when there is a possibility that changes in interest rates could adversely affect an investments fair value. The Town’s investment within the Florida Municipal Investment Trust and SBA are exposed to interest rate risk. The 1-3 Year High Quality Bond Fund has an effective duration and weighted average maturity of 1.49 years. The weighted average maturity of the Florida PRIME is 40 days.

Life Insurance Contracts and Variable Annuity:

In order to provide death benefits to a Town Commissioner (Note 7), the Town has entered into a life insurance contracts and purchases a variable annuity contract with a financial institution. The fair value of these contracts as of September 30, 2014 is $387,138. The value of these contracts is presented as committed fund balance.
NOTE 3 - DEPOSITS AND INVESTMENTS (continued)

Investments – Town Commissioner Pension Plan:

As of September 30, 2014, the Town’s Commissioner Pension Plan (the “Plan”) had the following investments:

<table>
<thead>
<tr>
<th>Investment Fund</th>
<th>Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>Loomis Sayles Investment Grade Bond</td>
<td>$ 554,868</td>

</tr>
<tr>
<td>Alger Small/Mid Cap Growth Fund</td>
<td>106,137</td>
</tr>
<tr>
<td></td>
<td><strong>$ 1,552,115</strong></td>
</tr>
</tbody>
</table>

Interest Rate Risk:

The investments held within the Intermediate Term Bond Fund have an average maturity and effective duration of approximately 9 and 6 years, respectively. The other mutual funds are not subject to interest rate risk.

Credit Risk:

The majority of the investments held within the Intermediate Term Bond Fund have a credit quality between Aaa and A, as rated by a nationally recognized statistical rating agency. The other mutual funds are not subject to credit risk.

NOTE 4 – PROPERTY TAXES

Property taxes are levied and become a lien on real and personal property prior to September 30, and are payable November 1, with discounts of one to four percent if paid prior to March 1 of the following calendar year. All unpaid taxes on real and personal property become delinquent on April 1, and bear interest of eighteen percent from April 1 until a tax sale certificate is sold at auction.

Assessed values are established by the Broward County Property Appraiser at just values. The assessed value of property at January 1, 2013, upon which the 2013-2014 levy was based, was approximately $ 524,783,000.

The Town is permitted by Article 7, Section 8 of the Florida Constitution to levy taxes up to $ 10 per $ 1,000 of assessed valuation for general governmental services (other than the payment of principal and interest on general obligation long-term debt). In addition, unlimited amounts may be levied for the payment of principal and interest on general obligation long-term debt subject to a limitation on the amount of debt outstanding. The tax rate to finance general governmental services and debt service requirements for the year ended September 30, 2014 was 8.5000 per $ 1,000.
NOTE 5 – CAPITAL ASSETS

Capital asset activity for the year ended September 30, 2014, was as follows:

</tbody>
</table>

The Town previously obtained a term note in the amount of $5,265,000 to refinance an existing note of $2,765,000 and provide funds of approximately $2,500,000 for stormwater drainage capital projects. The note bears interest at a fixed rate of 4.00%, payable monthly through December 2017. The term loan is secured by public service taxes and the net system revenues of the Stormwater Drainage District Fund. The Town must fix, establish and maintain stormwater rates in an amount, that when added to public service taxes, generates pledged revenues sufficient to cover annual debt service by 1.50 times. For the year ended September 30, 2014, this covenant has been met.

The Town previously issued Sewer Revenue Bond, Series 2009, in the amount of $2,360,000. The bond proceeds were used to pay off the entire balance of the interim financing that had been used to finance a part of the cost of acquiring, constructing and erecting extensions and improvements to the municipal sewer system of the Town. The Bond bears interest, payable annually on September 1, at the rate of 4.375% per annum through September 2048. Principal is due beginning on September 1, 2011 through September 1, 2048. The Bond contains certain restrictive covenants which include; adopting annual operating budgets, the establishment of revenue, operation and maintenance and bond sinking funds; and the establishment of rates sufficient to satisfy debt service requirements. The Bond is secured by a pledge of revenues from the Town’s revenues from the Sewer Utility Fund.

The following is a schedule of approximate future debt service requirements for Business-type activities at September 30, 2014:

NOTE 7 – PENSION PLANS

Employees' Pension Plans:

The Town previously elected to participate in the Florida Retirement System (“FRS”). All general employees hired after August 1, 1997 participate in the FRS, a cost sharing, multiple-employer, public retirement system controlled by the State Legislature and administered by the State of Florida Department of Administration, Division of Retirement. The FRS provides retirement and disability benefits, annual costs of living adjustments and death benefits to Plan members and beneficiaries. A post-employment health insurance subsidy is also provided to eligible employees.

Benefits are established by Chapter 121, Florida Statutes and Chapter 22B, Florida Administrative Code. Amendments to the law can only be made by an act of the Florida Legislature.

The State of Florida issues a publicly available financial report that includes financial statement and required supplementary information for the FRS. That report may be obtained by writing to the State of Florida Division of Retirement, P.O. Box 9000, Tallahassee, Florida 32315-9000.

The FRS funding policy provides for monthly employer contributions at actuarially determined rates that, expressed as percentages of annual covered payroll are adequate to accumulate sufficient assets to pay benefits when due (see Plan Description for current rates). Level percentage of payroll employer contribution rates, established by state law, is determined using the entry-age actuarial cost method. If an unfunded actuarial liability reemerges as a result of future plan benefit changes, assumption changes or methodology changes, it is assumed any unfunded actuarial liability would be amortized over 30 years, using level dollar amounts. Except for gains reserved for rate stabilization, it is anticipated that future actuarial gains and losses are amortized on a rolling 10% basis, as a level dollar amount.

The system provides for vesting of benefits after six years of creditable service. Employees are eligible for normal retirement at age 62. Early retirement may be taken any time after six years of service. If an eligible employee elects to take early retirement, there is a 5% benefit reduction for each year prior to normal retirement. Benefits are computed on the basis of age and/or years of service, average final compensation and service credit. Average final compensation is the average of the five highest fiscal years of earnings. The system also provides for death and disability benefits.
NOTE 7 – PENSION PLANS (continued)

State law provides for all eligible FRS members to elect and to participate in the Deferred Retirement Option Program (DROP). The DROP allows an employee to retire and defer their monthly retirement benefit to an interest bearing account for up to a maximum of sixty months, and to continue employment with the Town. When the DROP period ends, the employee must terminate employment. At that time, the employee will receive payment of the accumulated DROP benefits, and direct receipt, thereafter, of the FRS monthly retirement benefit.

Contributions to the FRS are made by the Town as a percentage of covered payroll. The required contribution rates in effect at year end were 7.37% for regular service class employees and 21.14% for senior management. Additionally, the Town is required to contribute 12.28% for all DROP participants. At September 30, 2014, the Town had 27 employees participating in the FRS.

The contribution requirements of covered payroll and actual contributions made for fiscal year 2014 and the two preceding years were as follows:

<table>

Additionally, the Town Manager, who elected not to participate in the Florida Retirement System, participates in a defined contribution pension plan created in accordance with Internal Revenue Code Section 401(a). The Town contributes 15% of the Town Manager’s annual salary to the Plan. For the year ended September 30, 2014, this contribution amounted to $ 37,837.

Town Commissioner Pension Plan:

On March 1, 2003, the Town Commission created, under the laws of the State of Florida, a single employer defined benefit pension plan that covers members of the Town Commission (the “Plan”). The administrative duties for this Plan are handled through Securian Retirement Services. A more detailed description of the Plan appears in the ordinances constituting the Plan and in the Summary Plan Description. The Plan does not issue a stand-alone financial report, but is included in the reporting entity of the Town as a pension trust fund. Amendments to the plan document can only be authorized by the Town Commission. At September 30, 2014, there are 5 active plan members and 2 retirees and beneficiaries receiving benefits.
NOTE 7 – PENSION PLANS (continued)

Members of the Plan are eligible for benefits at their normal retirement date, which is the first day of the month coincident with, or next, following attainment of age 62 or 4 years of credited service if hired prior to October 1, 2008 or attainment of age 62 or 13 years of credited service if hired after.

Normal benefits are equal to 5% of the average monthly compensation multiplied by the credited years of service, with a maximum of 20 credited years. The maximum benefit under the plan is $195,000, which is subject to certain limitations if less than 10 years of credited service are attained.

Upon the death of member, benefits cease to be paid out of Plan assets. However, a beneficiary will receive an annuity equal to the accrued benefit owed to the plan member, payable over 10 years. This will be funded through the Town’s General Fund (Note 9).

During the year, the Town made a contribution to the Plan in the amount of $66,669. At September 30, 2014, the Plan holds 1,552,115 in investments (Note 3).

The most recent actuarial valuation for the Plan was completed as of October 1, 2014. The following information reflects the Town’s annual pension cost and net pension asset for the year ended September 30, 2014:

Annual required contribution $107,611
Interest on net pension obligation (18,259)
Adjustment to annual required contribution 60,106
Annual pension cost 149,458
Contributions made (66,669)
Decrease in net pension asset 82,789
Net pension asset, beginning of year (365,186)
Net pension asset, end of year $ (282,397)

NOTE 7 – PENSION PLANS (continued)

Actuarial methods and significant assumptions used to determine the annual required contributions for the current year are as follows:

<table>
<thead>
<tr>
<th>Valuation date</th>
<th>October 1, 2014</th>
</tr>
</thead>
<tbody>
<tr>
<td>Actuarial cost method</td>
<td>Aggregate</td>
</tr>
<tr>
<td>Amortization method</td>
<td>Level dollar closed</td>
</tr>
<tr>
<td>Remaining amortization period</td>
<td>7 Years</td>
</tr>
<tr>
<td>Asset valuation method</td>
<td>Market value adjusted for contributions receivable or prepaid</td>
</tr>
</tbody>
</table>

Actuarial assumptions:
- Rate of return: 5.0%
- Projected salary increases: 3.0%
- Inflation adjustment: 3.5%

The aggregate actuarial cost method does not separately amortize unfunded actuarial accrued liabilities information about funded status and funding progress is presented using the entry age actuarial cost method. Therefore, information presented is intended to serve as a surrogate for the funded status and funding progress of the plan.

The funded status of the Plan as of October 1, 2014, the most recent actuarial valuation date, is as follows:

<table>
<thead>
<tr>
<th>Actuarial Valuation Date</th>
<th>Actuarial Value of Assets (a)</th>
<th>Actuarial Accrued Liability (AAL) (b)</th>
<th>Unfunded AAL (b) - (a)</th>
<th>Funded Ratio (a) / (b)</th>
<th>Covered Payroll (c)</th>
<th>UAAL as a Percentage of Covered Payroll (b-a) / (c)</th>
</tr>
</thead>
<tbody>
<tr>
<td>10/01/14</td>
<td>$1,660,758</td>
<td>$1,991,489</td>
<td>$330,731</td>
<td>83.4%</td>
<td>$30,554</td>
<td>$1082.4%</td>
</tr>
</tbody>
</table>

The schedule of funding progress presented as required supplementary information (RSI) following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the UAAL for benefits.

The Town does not issue audited stand-alone financial statements for the Plan. Therefore, the provisions of GASB Statement No.67, *Financial Reporting for Pension Plans – An Amendment of GASB Statement No.25* have been incorporated to this Comprehensive Annual Financial Report in the paragraphs below and Required Supplementary Information section.

*Investments:*

*Investment policy* - The Plan’s policy in regard to the allocation of invested assets is established by the Pension Board. The Plan currently has all of its funds invested through Securian Retirement Services. The investment policy may be amended by the Pension Board by a majority vote of its members. It is the policy of the Pension Board to pursue an investment strategy that reduces risk through the prudent diversification of the portfolio across a broad selection of distinct asset classes. Overall asset allocation targets are reviewed on an annual basis. The following is the adopted asset allocation policy as of September 30, 2014:
NOTE 7 – PENSION PLANS (continued)

</tr>
</tbody>
</table>

Concentrations - Governmental entities need to disclose the concentration of credit risk with a single issuer. If 5.00% or more of the total assets of the portfolio are invested with one issuer, an additional disclosure is required. Investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds, external investment pools and other pooled investments are excluded from the concentration of credit risk disclosure requirements. There were no individual investments that represent 5.00% or more, at September 30, 2014, that met the criteria for disclosure.

Rate of return- For the year ended September 30, 2014, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 9.65%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Net Pension Liability (Asset) of the Pension Plan for Town Commissioners:

The components of the net pension liability at September 30, 2014, were as follows:

- Total pension liability $1,995,277
- Plan fiduciary net position $(1,552,115)
- Net position liability (asset) $443,162
- Plan fiduciary net position as a percentage of the total pension liability 77.79%

The long-term expected rate of return on Plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the Town’s target asset allocation as of September 30, 2014 are summarized in the following table:
TOWN OF PEMBROKE PARK, FLORIDA
NOTES TO THE FINANCIAL STATEMENTS
September 30, 2014

NOTE 7 – PENSION PLANS (continued)

<table>
<thead>
<tr>
<th>Asset Class/Investment Category</th>

</tr>
<tr>
<td>Global stocks</td>
<td>8.15% per annum</td>
</tr>
<tr>
<td>Fixed Income and Similar Funds:</td>
<td></td>
</tr>
<tr>
<td>Multi-Sector Bonds</td>
<td>4.15% per annum</td>
</tr>
</tbody>
</table>

Discount rate - The discount rate used to measure the total pension liability was 6.50% per annum. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that the Town contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the Plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the net pension liability to changes in the discount rate. The following presents the net pension liability of the Town, calculated using the discount rate of 8.07%, as well as what the Town’s net pension liability would be if it were calculated using a discount rate that is 1.00% lower (5.50%) or 1.00% higher (7.50%) than the current rate:

<table>
<thead>
<tr>

<td>$705,164</td>
<td>$443,162</td>
</tr>
</tbody>
</table>

NOTE 8 – OTHER POST EMPLOYMENT BENEFITS

Plan Description and Funding Policy:

The Town offers retired employees the opportunity to retain the Town’s health insurance coverage. Retirees contribute an amount equal to the actual premium for health insurance that is charged by the carrier. However, there is an implied subsidy in the insurance premium for retirees because the premium charged for retirees is the same as the premium charged for active employees, who are younger than retirees on average.

Additionally, Town Commissioner’s beneficiaries are eligible for a pre-funded benefit should the Commissioner become deceased while in active service. The funding for this benefit has been accomplished through the purchase of life insurance products or an annuity product that is expected to cover the costs of the possible benefits.
NOTE 8 – OTHER POST EMPLOYMENT BENEFITS (continued)

During the year, the Town had 30 active participants and no retirees receiving benefits.

Actuarial Assumptions:

Projections of benefits are based on the substantive plan and include the types of benefits in force at the time of valuation date and the pattern of sharing benefits between the Town and the plan members at that point. Actuarial calculations reflect a long-term perspective and employ methods and assumptions that are designed to reduce the short-term volatility in actuarial accrued liabilities and the actuarial value of assets. Additionally, actuarial valuations for OPEB plans involve estimates of the value of reported amounts and assumptions about the probability of events far into the future and actuarially determined amounts are subject to continual revision as results are compared to past expectations and new estimates are made about the future. The cost developed pursuant to GASB 45 is only an estimate of the true cost of providing post-employment benefits. The basis for these benefits is authorized by the Town Commission by resolution.

The latest valuation is measured as of October 1, 2013 based on the following methods and assumptions:

<table>
<thead>
<tr>
<th>Actuarial cost method</th>
<th>Entry Age Normal</th>
</tr>
</thead>
<tbody>
<tr>
<td>Amortization method</td>
<td>Level Percentage of Payroll</td>
</tr>
<tr>
<td></td>

</tr>
<tr>
<td>Investment return</td>
<td>4.50% per annum</td>
</tr>
<tr>
<td>Payroll growth/inflation assumption</td>
<td>0%</td>
</tr>
</tbody>
</table>

Healthcare cost trend:
- Pre-Medicare: 8.5% in 2013, trending to 4.50% in 2017
- Post-Medicare: 8.5% in 2013, trending to 4.5% in 2017

A stand-alone actuarial valuation reports has been prepared by an independent actuary and is available for review at the Finance Department in Town Hall, 3150 S.W. 52nd Avenue; Pembroke Park, FL 33023.

The net OPEB obligation at September 30, 2014 has been reflected on the Statement of Net Position. The plan is not pre-funded and is therefore supported on a pay-as-you-go basis.

Funded Status:

For the year ended September 30, 2014, the Town’s annual post-employment benefit (OPEB) costs were as follows:

<table>
<thead>
<tr>
<th>Description</th>

The schedule of funding progress presented as required supplementary information (RSI) following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of assets is increasing or decreasing over time relative to the UAAL for benefits.

NOTE 9 – COMMITMENTS AND CONTINGENCIES

Risk Management:

The Town is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets, errors and omissions; and natural disasters. In order to limit its exposure to these risks, the Town is a participant in the Florida League of Cities (a not-for-profit corporation) self-insurance program for workers' compensation, general and auto liability, and property insurance. This self-insurance program purchases excess and specific coverage from third party insurance carriers. Participants in the program are billed annually for their portion of the cost of the program adjusted for actual experience during the period of coverage. Participants are not assessed for unanticipated losses incurred by the program.
NOTE 9 – COMMITMENTS AND CONTINGENCIES (continued)

Grant Contingency:

The Town receives financial assistance from federal, state and local governmental agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and may be subject to audit by the grantor agencies. In accordance with OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations and the Florida Single Audit Act, the Town is required to conduct "single audits" when the required thresholds of $500,000 in grant expenditures from either source is exceeded. For the year ended September 30, 2014, neither a Federal audit in accordance with OMB Circular A-133, Audits of States Local Governments, and Non-Profit Organizations or a state single audit was required.

Significant Agreements:

The Town previously entered into an agreement with the Broward Sheriff's Office to provide professional police services through September 2014. After its initial term, the agreement may be renewed for an additional three years, and then for an additional five years upon mutual agreement of the parties. The agreement may be terminated upon default if one of the parties gives the other party thirty days written notice. Currently, this agreement is continuing on a month to month basis while a new agreement is negotiated. For the fiscal year ending September 30, 2014, the total amount due under the agreement will be approximately $2,682,000 in monthly installments. The amount due for subsequent years will be determined based on the Sheriff's budgeted costs. The maximum increase in the fee each year will be five percent for operating costs and nine percent for costs relating to health insurance premiums. There is no limitation on the cost increase related to workers’ compensation premiums and pension contributions. The Town paid approximately $2,641,000 for police services for the year ended September 30, 2014.

The Town previously entered into an agreement with Broward Sheriff's Office to provide emergency medical and fire protection services through September 30, 2014. The renewal and termination terms are the same as noted for the police services agreement. Currently, this agreement is continuing on a month to month basis while a new agreement is negotiated. For the fiscal year ending September 30, 2014, the total amount due under the agreement is approximately $2,538,000 in monthly installments. For subsequent fiscal years, the amount owed will be based on the Sheriff's budgeted costs, subject to the restrictions noted under the police services agreement. The amount paid for emergency medical and fire protection services for the year ending September 30, 2014 was $2,869,000.

The Town has an agreement with the City of Hollywood for sewage disposal. The monthly charges for the disposal service are included in the operating expenses of the Sewer Utility Fund.

Litigation:

The Town is involved in two ongoing litigation matters. The ultimate outcome of these matters, in the opinion of the Town Attorney, will not have a material effect on the Town’s financial condition.

Post-retirement benefits:

The Town has authorized post-retirement benefits as noted in the Town Commissioner Pension Plan (Note 7). The Town has purchased life insurance policies on four of its Commissioners to fund future payments of death benefits. The policies have death benefits ranging from $100,000 to $300,000. In addition, the policies require annual premiums ranging from approximately $900 to $15,400, with future premium outlays to be approximately $30,500 through fiscal year 2017 and $17,200 thereafter until fiscal year 2020.

Notes to Schedule

Valuation date: October 1, 2014
Actuarially determined contribution rates are calculated as of October 1 which is two years prior to the end of the fiscal year in which contributions are reported.

Methods and assumptions used to determine contribution rates:

- Actuarial cost method: Aggregate
- Amortization method: Level dollar closed
- Remaining amortization period: 7 years
- Asset valuation method: Market value adjusted for contributions receivable or prepaid
- Inflation: 3.50%
- Salary increases: 3.00%
- Investment rate of return: 5.00%
- Retirement age: Early retirement age
- Mortality: Pre-retirement: None
  Post-retirement: 2014 optional combined tables for males and females

STATISTICAL SECTION

(NOT COVERED BY INDEPENDENT AUDITOR’S REPORT)
This part of the Town of Pembroke Park’s comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the Town’s overall financial health.

CONTENTS

Financial Trends

These schedules contain trend information to help the reader understand how the Town’s financial performance and well-being have changed over time. 55-62

Revenue Capacity

These schedules contain information to help the reader assess the Town’s most significant local revenue source, the property tax. 63-66

Debt Capacity

These schedules contain information to help the reader assess the affordability of the Town’s current levels of outstanding debt and the Town’s ability to issue additional debt in the future. 67-72

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the Town’s financial activities take place. 73-74

Operating Information

These schedules contain service and infrastructure data to help the reader understand how the information in the Town’s financial report relates to the services the Town provides and the activities it performs. 75-77

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

</tr>
<tr>
<td><strong>Total direct and overlapping debt</strong></td>
<td></td>
<td></td>
<td><strong>$16,483,210</strong></td>
</tr>
</tbody>
</table>

(1) The percentage of overlapping debt applicable is estimated using taxable assessed property values. The applicable percentage was estimated by determining the portion of Broward County's taxable value that is within the Town of Pembroke Park's boundaries and dividing it by the County's total taxable assessed value.

Source: Broward County, Financial Reporting and Accounting Division
Source: Broward County, Florida, Property Appraiser
The Town Charter does not establish a legal debt margin, nor does the Florida Statutes Chapter 166, which grants home rule authority to municipalities.

OTHER REPORTS OF INDEPENDENT AUDITORS AND RELATED SCHEDULES
INDEPENDENT AUDITOR’S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Honorable Mayor and Town Commission
Town of Pembroke Park, Florida
Pembroke Park, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Town of Pembroke Park, Florida (the “Town”) as of and for the year ended September 30, 2014, and the related notes to the financial statements, which collectively comprise the Town’s basic financial statements and have issued our report thereon dated March 20, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Town’s internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town’s internal control. Accordingly, we do not express an opinion on the effectiveness of the Town’s internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity’s financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.
Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town’s financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

We noted a certain matter that is an opportunity for the Town to further strengthen controls that we reported to management. This matter is shown in the accompanying Schedule of Findings and Responses.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity’s internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity’s internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Fort Lauderdale, Florida
March 20, 2015
INDEPENDENT AUDITOR’S REPORT TO TOWN MANAGEMENT

To the Honorable Mayor and Town Commission
Town of Pembroke Park, Florida
Pembroke Park, Florida

Report on the Financial Statements

We have audited the basic financial statements of Town of Pembroke Park, Florida (the "Town"), as of and for the year ended September 30, 2014, and have issued our report thereon dated March 20, 2015.

Auditor’s Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Other Reports

We have issued our Independent Auditor’s Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards and Independent Auditor’s Report on an examination conducted in accordance with AICPA Professional Standards, Section 601, regarding compliance requirements in accordance with Chapter 10.550, Rules of the Auditor General. Disclosures in those reports which are dated March 20, 2015, should be considered in conjunction with this management letter.

Prior Audit Findings

Section 10.554(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address significant findings and recommendations made in the preceding annual financial audit report. There were no findings and recommendations made in the preceding annual financial audit report.

Official Title and Legal Authority

Section 10.554(1)(i)4., Rules of the Auditor General, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this management letter, unless disclosed in the notes to the financial statements. The Town of Pembroke Park, Florida was incorporated on June 20, 1959. The Town does not have any component units.
Financial Condition

Section 10.554(1)(i)5.a., Rules of the Auditor General, requires that we report the results of our determination as to whether or not the local governmental entity has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and identification of the specific condition(s) met. In connection with our audit, we determined that the Town did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Pursuant to Sections 10.554(1)(i)5.c. and 10.556(8), Rules of the Auditor General, we applied financial condition assessment procedures. It is management’s responsibility to monitor the Town’s financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same.

Annual Financial Report

Section 10.554(1)(i)5.b., Rules of the Auditor General, requires that we report the results of our determination as to whether the annual financial report for the Town for the fiscal year ended September 30, 2014, filed with the Florida Department of Financial Services pursuant to Section 218.32(1)(a), Florida Statutes, is in agreement with the annual financial audit report for the fiscal year ended September 30, 2014. In connection with our audit, we determined that these two reports were in agreement.

Other Matters

Section 10.554(1)(i)3., Rules of the Auditor General, requires that we address in the management letter any recommendations to improve financial management. In connection with our audit, our recommendations to improve financial management are included in the Schedule of Findings and Responses on page 83.

Section 10.554(1)(i)4., Rules of the Auditor General, requires that we address violations of provisions of contracts or grant agreements, or abuse that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but warrants the attention of those charged with governance. In connection with our audit, we did not have any such findings.

Purpose of this Letter

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representative, the Florida Auditor General, Federal and other granting agencies, and applicable management, and is not intended to be and should not be used by anyone other than theses specified parties.

Keefe McCullough

KEEFE McCULLOUGH

Fort Lauderdale, Florida
March 20, 2015
INDEPENDENT AUDITOR’S REPORT ON COMPLIANCE WITH SECTION 218.415, FLORIDA STATUTES

To the Honorable Mayor and Town Commission
Town of Pembroke Park, Florida
Pembroke Park, Florida

We have examined Town of Pembroke Park, Florida’s (the "Town") compliance with the requirements of Section 218.415, Florida Statutes, Local Government Investment Policies, during the year ended September 30, 2014. Management is responsible for the Town’s compliance with those requirements. Our responsibility is to express an opinion on the Town’s compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence about the Town’s compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. Our examination does not provide a legal determination on the Town’s compliance with specified requirements.

In our opinion, the Town complied, in all material respects, with the aforementioned requirements for the year ended September 30, 2014.

This report is intended solely for the information and use of management and the State of Florida Auditor General and is not intended to be and should not be used by anyone other than these specified parties.

Keefe McCullough
KEEFE McCULLOUGH

Fort Lauderdale, Florida
March 20, 2015
CURRENT YEAR INTERNAL CONTROL COMMENT AND RECOMMENDATION

RECOMMENDATION:

2014-01 – Commission Meeting Minutes:

During our audit we noted that minutes were not available for several meetings of the Town Commission. The State of Florida requires that minutes of governmental boards or commissions must be taken, and available for public inspection. A formal draft copy of meetings minutes should be approved by the commission at a subsequent meeting so that members of the commission or public can reference official actions taken in the form of ordinance or resolution. In addition, the longer the time between a meeting being held and the draft presentation of those minutes to the governing board decreases the probability of corrections being recognized.

Management’s Response:

This situation was the result of personnel changes in the Town, including the minutes transcriptionist. The Town expects that it will be fully rectified during the fiscal year ending September 30, 2015.
